## NIGHT READING

"Poor lights" are always blamed for many annoyances that are due to poor eyes or poor eyeglasses.

We of this generation are prone to talk of poor lights—with no thought of the inferior lights of earlier days.

Many go through half their lives blaming poor lights for discomfort and inability to see well, when they need a good optician more than good lights.

Let us turn the light of our optical knowledge your way and see if it can't be made of mutual benefit.

**Dr. Geo. B. Pratt**  
Optician, Phoenix, Arizona.

MONEY'S  
WORTH

## ..CIGARS..

If a druggist has learned his trade he is a critical buyer. He buys cigars as carefully as he buys drugs. Cigar makers say we are hard to suit. Perhaps we are; we think of those we have to suit, and we do please the most critical smokers.

MEAN	NORMAL	1st of Month
53	56	-140
		Jan. 1, 1903

Maximum temperature, 67; minimum temperature, 39.

Average relative humidity, 45 per cent.

Total precipitation, 0.

Character of the day—Clear.

M. E. BLYSTONE,  
Section Director.

**A NATURAL DEATH.**—The Phoenix Opera club after a short but eventful life, died a natural death and there will be no opera given this winter.

**THE KING'S DAUGHTERS.**—The King's Daughters of the Baptist church have postponed their regular meeting until next Tuesday evening.

**TEA POSTPONED.**—The ladies of the Baptist church have postponed their afternoon tea today on account of the funeral of Mrs. George Miner.

**THREATENED FLOOD.**—A bursted water pipe on East Madison street created a little excitement yesterday afternoon till the water company's repair men were located.

**UNIQUE ENTERTAINMENT.**—A unique entertainment, literary and musical, will be given in the Dorris Opera house on the evening of Thursday, March 5th. Further particulars will be given later. A number of the best speakers and singers in the city will take part.

**A FIRE ALARM.**—The fire department was called out last night about 9 o'clock by an alarm from Madison and Second street. It proved to be a fire from a lamp tipped over or exploded and though the building narrowly escaped burning no great damage was done.

**GONE TO CALIFORNIA.**—Captain Nathaniel Burruss, wife, son and two daughters left last evening for California. Their home is in Norfolk, Va., and they have been touring the west since early last fall having spent the last two months in Phoenix. They are greatly pleased with Arizona and it is not unlikely, will return again during future winter seasons.

**A PEN THIEF.**—Night before last some one stole two dozen Waterman and Marshall fountain pens from the store of Elvey & Hulitt. They were on a show case and were not missed until some time after they had been taken. One of the customers of the store was in town yesterday and said that the evening before a young man a stranger had called at his house and tried to sell a fountain pen.

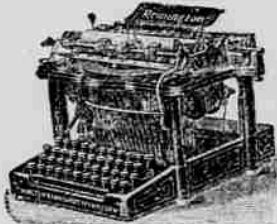

**HOME AGAIN.**—George Alkire, the official rain maker, has returned from his eastern trip and says he was most too well pleased with the effect of it for not only rain but snow and cold weather followed him nearly everywhere he went. He is glad to get back and thaw out. The present indications are that the spring will be a wet one and the necessities of the farmers will not require another trip before midsummer.

**A MOTHER'S MEETING.**—Will be held Friday afternoon at 3 o'clock at the First M. E. church by the workers of the Junior League. Mrs. J. W. Thomas will speak upon special lines of moral training and a discussion of practical points will follow. All women who are interested in our league and Sunday school are urged to be present. At 4 o'clock the Junior League will hold a short meeting to which parents and friends are invited. Reports of the work will be given and prizes will be awarded.

**DEATH OF MRS. G. E. MINER.**—Clyde R. Miner, wife of G. E. Miner, died at their residence on North Central avenue at 11 a. m. February 25. She leaves an infant daughter three weeks old. Her mother, Mrs. S. T. Gilbert, and three brothers live in the valley. She was born at Arlington, Carlisle county, Ky., May 30, 1884. She came to Phoenix in December, 1895. She was a member of Phoenix Baptist church. The funeral will take place at Mohn & Dorris' at 2 p. m. today. Rev. Lewis Halsey will officiate.

**AGRICULTURAL YEAR BOOK.**—The secretary of the board of trade has received a few copies of the year book of the agricultural department, through the kindness of Delegate Smith. They are for general distribution as long as they last but they will

W. L. GEORGE, Proprietor.

not last long for the volume is one of special interest. It deals with a multiplicity of subjects those most interesting to this section being water storage, sugar beet culture and fruits. There is also much space devoted to forestry, a subject that should interest this section more than it does. The book is profusely illustrated and has a number of colored plates.

**SUPREME COURT.**—The only matter before the supreme court yesterday was the certiorari case from Graham county relative to the issuance of a certificate of election to the office of justice of the peace of a candidate who had not been elected. The court decided that the return made by the board was not sufficient to enable the court to decide as to the right of Chapman and directed an order of a further return of the record of the action of the board in the case. The return must be made by the next meeting of the court, March 18.

**NOT YGNACIO ROBLES.**—Some of the newspapers of Phoenix persist in coupling the name of Ygnacio Robles with the police and justice courts. It has been mentioned that a man of that name was wanted yesterday for passing whiskey through the bars to the prisoners of the city jail. There are many people in town by the name of Robles but there is only one Ygnacio Robles. He was not in town at the time of the alleged offense nor has he been here at any time within a week until last night. He is a hard working man and is law abiding.

**SUGAR BEETS.**—B. A. Fowler reports daily additions to the subscriptions for the raising of the bonus for the sugar beet factory. He has not had time to devote much attention to it for a day or two but is doing a little every day. Every property owner should devote himself to a study of the question if he has not already drawn his conclusions and be prepared to put his name down when asked, or better yet ask himself to do so. The building of a factory here will mean the disbursement of perhaps a quarter of a million of dollars in this valley the first season a large part of which will go into the channels of local trade. But more than that it will greatly enhance the value of all real property.

**MUST HAVE BEEN AN ACCIDENT.**—Deputy Sheriff Oscar Roberts returned yesterday morning from New River with the prospecting outfit and other property belonging to Joseph Roseman, the old man who was killed there on Monday. The deputy sheriff said there was no doubt that the killing was accidental; that from the surroundings there could have been no intention to commit suicide. The inquest will be held by Justice Burnett this morning at 9 o'clock. Nobody at New River knew anything about Roseman. Barman, the young man who had come there with him on his way to Phoenix, had only met him as a prospector and had traveled with him. Among his effects is a large pack which it is thought may contain some papers which will throw light on his antecedents and tell where his relatives live. He had been in the territory for a long time and had often been at the station near the place he was killed, but that is all that was known of him.

**A NEWS AGENCY.**—Max Bunsick has started a news agency in Phoenix. His office is at the Brisley drug company, where orders will be received for newspapers published in Phoenix or elsewhere and also for making copies. There is nobody better calculated to make a success of a news agency than Max Bunsick. He is young yet, but he has been in the newspaper business all his life. More than four years ago, when he was about eleven years old, he was a contributor to The Republican on a variety of subjects and added much to the then prevailing literature of the Spanish-American war, which happened to be at its height about that time. Everybody was excited. Cervantes' Spanish fleet was skirmishing around in the Caribbean threatening to break into the hostilities, and the whole American people felt that they would like to see something happen to him and his fleet. The things that Max Bunsick said about the Spaniards then would have been a new cause bell if one were needed. At any rate, they faithfully reflected the sentiment of the nation.

**THE SANTA FE CONFERENCE.**  
There Is No Hint Yet of the Result on Wage Question.

Topeka, Kan., February 25.—This afternoon the Santa Fe officials and conductors and trainmen of the Santa Fe resumed their conference at the Santa Fe general office building.

Third Vice President Kendrick, General Manager Mudge, General Manager Wells, General Manager Nixon and General Superintendent Harley are here attending the meeting. The officials refuse to give any information as to the progress of negotiations or what the probable outcome will be.

Sillicus—"They are really the most devoted lovers I ever saw." (Ycnicus—"Yes; it seems a shame that they are going to get married and spoil it all.")

**A Strong Point**  
One of the strongest points in favor of

**The Dr. Deimel Underwear**

is that it can be easily washed and does not shrink. When you buy it, it fits, and after constant washing, it will still fit as well as the day it was first put on.

Compare this with the woolen garment which grows thicker and harder and smaller with each washing.

And this is only one of the many good points in favor of the DR. DEIMEL UNDERWEAR. Our little booklet, mailed free, tells of many more.
